

January 8, 2021

This certifies that

Sreenidhi Sankararaman

has been named a

**REGENERON SCIENCE TALENT SEARCH
2021 SCHOLAR**

Society for Science and Regeneron Pharmaceuticals, Inc., are pleased to announce this remarkable student among the top 300 Scholars in the 80th Regeneron Science Talent Search (Regeneron STS).

The Science Talent Search, a program of Society for Science, and now in its 80th year, is the country's oldest and most prestigious science competition for high school seniors. It was created to identify and encourage high school seniors who demonstrate exceptional ability in science, math and engineering.

Only 300 entrants are named scholars of Regeneron STS each year. This designation is evidence of significant scientific creativity and scholastic aptitude. Colleges and universities have found that scholars are worthy of careful consideration by institutions seeking students who possess an active interest in scientific and scholarly research as well as superior academic ability. Alumni of the Science Talent Search have made extraordinary contributions to science and hold over 100 of the world's most distinguished science and math honors. Thirteen of these remarkable scientists have gone on to win the Nobel Prize.

This certificate has been provided to accompany the student's college and scholarship applications. Scholars are also posted at societyforscience.org/regeneron-sts and will remain on the Society for Science website throughout 2021.

NCWIT (National Center for Women & Information Technology) 2021 National Honorable Awardee

(applied for scientific engineering)

Dear Sreenidhi,

On behalf of the NCWIT (National Center for Women & Information Technology) National Award Selection Committee, we are honored to inform you that you have been selected as a **2021 National Honorable Mention** of the NCWIT Award for Aspirations in Computing. Of the more than 4,200 applications submitted this year, yours impressively made the top 400! This means you are among the top 9.5% of all applicants!

We know this is exciting news, but **PLEASE DO NOT PUBLICIZE YOUR AWARD YET!!** (Yes, you can tell your family and include it on college applications!) We will share an official announcement on aspirations.org by the end of January. We will email you as soon as it is ready and then you may publicly share your awesome news.

We will send more information in further communications, but please note the following:

- This result pertains to the National Award, which is selected by NCWIT and our sponsor Bank of America; the results of your Regional Affiliate Award are still in process and will be announced separately in February.

Please take the following 2 actions right now:

1. Complete [this Award Acknowledgement form](#) by Friday, January 15th to let us know you received this important notification.
2. Update your preferred mailing address in your aspirations.org profile. In order to receive your \$50 Bank of America gift card prize, you must update your aspirations.org profile address to your preferred mailing address by January 15, 2021. This is where we will mail your monetary prize.

We are so very proud to welcome you into this wonderful group of National Award Honorable Mention recipients! Congratulations again, and we look forward to hearing from you!

Cheers,
The NCWIT Aspirations in Computing Team
